

New \$30,000 Clubhouse Planned For Bronx Park

It wouldn't be surprising to see a number of hard workers from Bronx Park Community Club passing out cigars in the near future, for their long overdue baby is about to be born.

With the co-operation of the Parks Board of East Kildonan, and a \$15,000 bank loan, construction on a new clubhouse will begin within a week or ten days. By the end of October,

a dream will finally have been fulfilled.

The \$30,000 building promises four dressing rooms 14x10, a spacious kitchen and canteen area, and large skating rinks. The clubrooms will be twice as big as the old ones, allowing a more complete sports program including volleyball and badminton.

Besides providing new benefits for all, the success of this long hoped-for project is living proof of what can be accomplished when a community works together for a common purpose, and when a few tenacious men and women refuse to take "no" for an answer.

The new clubhouse will be open to everybody in this area. You who live here, and have contributed in any small way to its birth, own it.
