SCHOOL IN THE NEWLY DEVELOPED AREA

Last April building plans were approved by the East Kildonan School Board, submitted and approved by the Department of Education, and we understood from Architects Smith, Carter & Katelnikoff that work would proceed immediately. Since that time, however, there have been a number of delays in purchasing the site from various owners and having their buildings moved off the property.

The new 8-room elementary school is located on Golspie st. between Oakview and Hazeldell, in an area approximately $1\frac{1}{2}$ blocks square. Excavation started June 16th and work is now underway on the sub-structure.

A name for the new school had been discussed last year, if and when it was built. The name is now official, chosen to commemorate a pioneering and influential man, one who had done so much for the early life of this community — Mr. Neil Campbell.

The Board recently accepted \$6,400 from the Land Development Company to purchase furniture to equip the Neil Campbell School. Tenders for the equipment will be received by the secretary prior to our August meeting.
