

OIL PLANT HEAD SAYS FIRE DAMAGE IS ONLY SLIGHT

Damage to the plant of the Radio Oil Refineries, Limited, Monroe avenue and Watt street, East Kildonan, as a result of a fire and explosion which occurred Wednesday afternoon, was only slight. The plant will be in operation again in a day or so, according to Ben Hechter, president of the company.

The stock was undamaged, while the loss consisted of the recording instruments, valued at about \$1,000, and the damage to the building is estimated at from \$500 to \$600.

It was incorrectly reported in Thursday's Free Press that the plant and several other buildings on the premises were in ruins. The Free Press regrets that this impression was given by its initial report.
